UNDERGROUND STORAGE TANKS TEMPORARILY CLOSED

	Tank 1	Tank 2	Tank 3	Tank 4	Tank 5
Installation Date					
Estimated capacity					
Substance Stored (mark appropriate box)					
Gasoline					
Diesel					
Heating Oil					
Kerosine					
Other (specify)					
Hazardous (special)					

I certify that the regulated underground storage tank(s) listed above and located at the facility listed above have been or will be temporarily closed as of_____, by completing the following, in accordance with 20 DCMR Chapter 6100: *(Date)*

Within ninety (90) days after an UST is temporarily closed, ensure the following:

All product has been emptied from the tank(s), so that no more than two- and one-half centimeters (2.5 cm) of residue, or three tenths of one percent (0.3%) by weight of the total capacity of the UST system remains in the system, remains in the tank.

Ensure that all vent lines are open and functioning.

Cap and secure all other lines, pumps, manways, and ancillary equipment.

Maintain financial responsibility as required by 20 DCMR Chapter 6700. (*Please note that insurance carriers may cancel insurance after one year of temporary closure*).

If any tank(s) contains more than two- and one-half centimeters (2.5 cm) of residue, or three tenths of one percent (0.3%) by weight of the total capacity of the UST system remains in the system, you must maintain release detection and corrosion protection (if applicable), in addition to the above.

Within seven (7) days after completing the activities above, submit an amended UST Facility Notification Form to the Department.

Name (Owner or Operator of USTs) Signature Date
