

## Hazardous Waste, Universal Waste, and Used Oil contractors that service the District of Columbia

The following is a partial listing of Hazardous Waste, Universal Waste, and Used Oil contractors that service the District of Columbia. Most of the contractors service a larger area than where they are located. This information is provided as a general public service.

The list was prepared by the District of Columbia Department of the Environment (DDOE) from information available at the time of preparation. DDOE makes no claim as to the completeness of this list or the quality of work performed by the contractors. Inclusion on this list is not to be considered an endorsement by the District of Columbia Department of the Environment. A web search may yield additional contractors not listed here. You may also research contractors using the ECHO database which can be accessed [here](#).

This list is not intended to include all waste management contractors. In specific, it does not capture information regarding contractors who handle radioactive waste and routine solid waste.

DDOE has provided web links when they were available. DDOE cannot attest to the security of these websites or the accuracy of the information provided by these third-party sites or any other linked site.

Each business generator of Hazardous Waste, Universal Waste, or Used Oil is responsible for knowing and complying with the relevant regulations. The regulations and law may be reviewed [here](#) and [here](#) respectively.

You may package your own waste and select a transporter and disposal site, or you may select a full service provider who will package your waste and arrange for transportation and disposal for you.

**Hiring a contractor will not guarantee compliance with the RCRA C regulations and law.**

District of Columbia residents may take hazardous items which originate in their household to the Household Hazardous Waste (HHW) drop off facility. Information about the items accepted, location, and hours can be viewed [here](#).

The District HHW drop off events may not be used by businesses.

Residents of Maryland and Virginia should contact The [Maryland Department of the Environment](#) or The [Virginia Department of Environmental Quality](#) for drop off options.

To change or add to this list, please contact the DDOE Hazardous Waste Program via email ([Victoria.north@dc.gov](mailto:Victoria.north@dc.gov)) or call 202 535 1909.
