

2016 BLOOMINGDALE REBATE PROGRAM

Contractor List

The following is a list of contractors familiar with the RiverSmart Bloomingdale Rebate Program. Those who have the PICP Specialist Course certificate of completion, a requirement for the installation of pervious pavers through this program, are included on the paver installation list to the left. Those that do not are included on the removal of impervious surface list to the right. If you'd like to use a contractor that is not on this list, please contact the Alliance for the Chesapeake Bay to ensure that the contractor has all necessary documents for participation in this program. We recommend that you seek at least three different quotes before making a decision about which contractor to use.

REMOVAL & PAVER INSTALLATION
