

DC CWMA and Sustainable DC EARTH DAY 2013

Saturday, April 20th, 2013

The DC Cooperative Weed Management Area

***Cordially invites you to join us for
EARTH DAY 2013***

The DC-CWMA members, partners and others will host an invasive species removal project at Kingman Island. It's a great opportunity to learn about invasive species, the damage they do to our community, and how to remove them. Find out more about wildlife management efforts and take part in restoring the area to promote wildlife conservation.

There are several invasive plant species currently impacting Kingman Island...come make a difference for the native plants and animals that live there! For more information about the event or the DC CWMA Program, please check the webpage: [DC CWMA](#)

Time: 9:00am -12:00pm

Location: Kingman Island (RFK Parking Lot)
575 Oklahoma Avenue NE, Washington DC, 20002

Notes: Please bring sunscreen and water. Wear closed-toed shoes or boots and long pants. Participants under 18 must be accompanied by an adult/guardian over 21. Waivers will be sent in the RSVP confirmation email and will be available on site.

For more information contact [Dan Donohue@thesca.org](mailto:Dan.Donohue@thesca.org)

The cooperative welcomes partnership with District landowners and managers, environmental organizations, community groups and individuals interested in becoming active in invasive plant management efforts in the District. Some current partners include the National Park Service, District Department of the Environment, the National Arboretum, Student Conservation Association and the Anacostia Watershed Society.
