

GOVERNMENT OF THE DISTRICT OF COLUMBIA

District Department of the Environment

CHAPTER 2 TECHNICAL MEMORANDUM

TO: File

THROUGH: Stephen S. Ours, P.E. *SSO*
Chief, Permitting Branch

FROM: Abraham T. Hagos *ATH*
Environmental Engineer

SUBJECT: **United States Marine Corps, Marine Corps Barracks
Permit Numbers 6321R-1, 6322 R-1 and 6323 R-1
Permits to Operate Three (3) 8.37 MMBtu/hr Boilers**

DATE: October 29, 2013

BACKGROUND INFORMATION

Permit renewal applications for permit numbers 6321, 6322, and 6323 to operate three (3) natural gas-fired 8.37 MMBtu/hr boilers at the United States Marine Corps Barracks, located at 8th and I Streets SE, were received by the Air Quality Division (AQD) on June 28, 2013 and additional information was also received by email on August 23, 2013.

The permit action will be published in the DC Register on November 1, 2013. Public comments for the permit action will be solicited through December 2, 2013.

The Marine Corps Barracks has not requested that any of the materials submitted with this application be held confidential.

No new regulations were identified as applicable to the source. Note that the area source boiler rule (40 CFR 63, Subpart JJJJJ) is not applicable because the units are exclusively natural gas fired.

RECOMMENDATIONS

Public comments for the permit action will be solicited from November 1, 2013 through December 2, 2013. AQD will resolve any comments received before issuing the permit, and if no comments are received, I recommend that permit (#'s 6321R-1, 6322R-1 and 6323R-1) be issued effective immediately and remain effective until December 1, 2018. At that time, the permit can be renewed if necessary.
