#### Design Start/End
May 2019 – Late 2020

#### Construction Start/End
Late 2020 (estimated)

### Objective
Manage stormwater and erosion by incorporating bioretention into the green space immediately adjacent (southeast) to the parking lot and the existing conveyance channel. This allows for water quality treatment of the runoff before discharging into the stream and reduces the erosion potential of the channel.

### Outputs
- Designs and permits
- Bioretention basin
- Drain guardian and pretreatment turret

### Sewershed
- MS4

### Watershed
- Potomac River

### Subwatershed
- C&O Canal & Battery Kemble Creek

### Ward
- 3

### Outcomes
