Indoor Air Quality Monitoring Research - Environmental Justice Government to Government Grant

RFA-FY23-AQD-813

Outreach and Education - Environmental Justice Government to Government Grant

RFA-FY23-AQD-814

Q1: If organizations apply as a team, is it possible that DOEE would select one partner's proposal to one RFP, but not its companion partners in the other related RFPs? E.g.: Is there a scenario where DOEE would "mix and match" different partners not initially proposed together – when submitting its application to the EPA?

A1: Applicants are encouraged to apply jointly, but DOEE does reserve the right to mix and match.

Q2: Are Universities that have 501(c)(3) status eligible to apply under the "Nonprofit Organization..." eligibility criteria for an RFP that universities are not eligible for?

A2: No, for those RFPs universities would need to partner with a non-university 501(c)(3) organization. That partner would be the lead organization when applying to these RFPs.
