

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Department of Energy and Environment

**RENEWAL APPLICATION FOR SOURCE CATEGORY PERMIT APPROVAL TO
OPERATE AN AREA SOURCE DRY CLEANING FACILITY USING
PERCHLOROETHYLENE**

Permit 6866-SC-R1

Instructions: This short form application is for renewal of coverage under the District's updated source category Permit 6866-SC-R1 for area source dry cleaning facilities using perchloroethylene as a solvent, and previously approved for coverage by Permit 6866-SC. A separate form is available for new, modified, or previously unpermitted facilities.

If you have questions about your eligibility or how to complete this application, please contact the Air Quality Division (AQD) at (202) 535-1747.

I. Applicant Information

1. Permit coverage approval to be issued to: (legal name of the organization applying for coverage under the source category permit)

2. Facility Name or Doing Business As (dba) Name: (if different from legal name above)

3. Mailing Address: _____

City: _____ State: _____ Zip: _____

Physical Address: _____

City: _____ State: _____ Zip: _____

4. Owner of the Business:

Name: _____ Title : _____

Phone: _____ Email: _____

5. Site Contact (if the same as the owner of the business, write "Same"):

Name: _____ Title : _____

Phone: _____ Email: _____

Renewal Application for Source Category Permit Approval to Operate an Area Source Dry Cleaning Facility Using Perchloroethylene

II. Facility Information

1. Please attach to this application a copy of the letter previously issued to your facility confirming coverage under source category Permit 6866-SC. This short form renewal application cannot be used if coverage approval was not granted under Permit 6866-SC.
2. Is your facility located within 200 feet of an existing child-occupied facility¹?
 Yes No
3. Is your dry cleaning facility located in a building with one or more residences, even if the residence is vacant at the time of this application?
 Yes No
4. If you answered “Yes” to the previous question (III.3), please check the following box to indicate your acknowledgement that all emissions of perchloroethylene from dry cleaning systems located in buildings with residences must cease by December 21, 2020 [See 40 CFR 63.322(o)(5)(i)]. **This means that you must permanently cease operation of all perchloroethylene dry cleaning machines in this facility by December 21, 2020.**

Acknowledged:

III. Equipment Information

1. Has any dry cleaning equipment previously using perchloroethylene been removed from the facility or otherwise permanently removed from service since issuance of the previous source category permit coverage approval attached to this application (See question II.1)?
 Yes No

If yes, please provide the machine type, manufacturer, model number, and serial number. This information should be consistent with the information provided in your previously approved application.

APPLICATION CONTINUED ON NEXT PAGE

¹ A “child-occupied facility” means a building, or portion of a building, which, as part of its function, receives children under 6 years of age on a regular basis and is required to obtain a certificate of occupancy as a precondition to performing that function. The term “child-occupied facility” includes a daycare center, nursery, preschool center, kindergarten classroom, child development center, child development home, child development facility, child-placing agency, infant care center, or similar entity. The location of a child-occupied facility as part of a larger structure does not make the entire structure a child-occupied facility. Only the portion of the facility occupied or regularly visited by children 6 years of age shall be considered the child-occupied facility. [D.C. Official Code § 8-108.03(c)]

Page 3 of 4

2. Has any dry cleaning equipment previously using perchloroethylene been modified to use a different solvent or cleaning method since issuance of the previous source category permit coverage approval attached to this application (See question II.1)?

Yes No

If yes, please describe the changes made and, where applicable, attach a product specification sheet or safety data sheet for any replacement solvent:

3. Other than those changes to equipment described in response to questions 1 and 2 of this section (above), have any changes been made to the equipment using perchloroethylene at the site since issuance of the previous source category permit coverage approval attached to this application (See question II.1)?

Yes No

If yes, please describe the changes made:

IV. Applicant Certification

1. Is the dry cleaning facility currently in compliance with the requirements of source category Permit 6866-SC?

Yes No

If no, please explain the deficiencies (add extra sheets as necessary):

2. Is the dry cleaning facility able to comply with and intending to comply with the requirements of the updated and renewed source category Permit 6866-SC-R1?

Yes No

If no, please explain the deficiencies and your plans to come into compliance with them (add extra sheets as necessary):
