

COMMUNITY SOLAR: NO ROOF? NO PROBLEM.

**REDUCE ENERGY BILLS • NO COST TO PARTICIPATE • REDUCE YOUR CARBON FOOTPRINT
UP TO \$500 SAVINGS ANNUALLY • HOMEOWNERSHIP NOT REQUIRED**

To qualify, residents must meet these income guidelines:

PERSONS IN HOUSEHOLD	1	2	3	4	5	6	7	8
INCOME LIMIT	\$67,950	\$77,650	\$87,350	\$97,050	\$104,850	\$112,600	\$120,350	\$128,150

COMMUNITY SOLAR

Community Solar provides the benefits of solar to residents who can't install systems on their home, including renters and homeowners whose rooftops are shaded or need repairs. A community solar project is not located on the home, but offsite, and the benefiting household (called a subscriber) receives a credit on their monthly electric bill.

HOW TO APPLY

DOEE plans to open enrollment for a variety of new community solar projects currently in the pipeline. Contact us to find out more!

ABOUT THE PROGRAM

Solar for All's goal is to expand the District's solar capacity and provide the benefits of locally-generated solar energy to low-income households. Through Solar for All, 100,000 low and moderate-income households in the District of Columbia will receive the benefits of solar. The Department of Energy and Environment (DOEE), in partnership with the DC Sustainability Energy Utility (DCSEU), is building community solar projects to benefit District residents, including renters and residents in multifamily buildings.

The Browns

The Veizagas

The Matthews

The Heards

The Mitchells

For more information about additional community solar projects, which will be made available to residents in Fall/Winter 2019, please:
