For the purpose of calculating the amount of the LIHEAP benefit, categorically eligible applicants must submit required LIHEAP application documentation to DOEE. DOEE staff calculates the LIHEAP benefit amount for a categorically eligible household according to the District of Columbia's LIHEAP Benefit Matrix. Categorical eligibility for SNAP does not apply to the emergency HVAC programs.

For the self-employed, gross income is adjusted gross income, calculated according to U.S. Internal Revenue Service (IRS) requirements. DOEE does not provide benefits to utility accounts with a credit on the account greater than \$1000.00. DOEE may reduce the client's benefit amount by the estimated dollar value of net-metering credits or virtual net-metering credits received through the District's Solar for All program, which is accounted for in the District's Benefit Matrix (see: https://doee.dc.gov/sites/default/files/dc/sites/ddoe/service_content/attachments/DOEE-%20Report-%20Solar%20for%20All%20Implementation-%20Final%20for%20Transmittal.pdf)

The District will not consider the COVID-19 economic impact payments (up to \$1,200 for qualifying individuals and an additional \$500 per child) or the Child Tax Credit as income for eligibility. These payments count as a rebate or advance payment of a credit that are exempted as income. Section 103(d) of the American Taxpayer Relief Act amended the relevant statutory provision, 26 U.S.C. § 6409, and specifies that, "... any refund (or advance payment with respect to a refundable credit) made to any individual under this title shall not be taken into account as income, and shall not be taken into account as resources for a period of 12 months from receipt, for purposes of determining the eligibility of such individual (or any other individual) for benefits or assistance (or the amount or extent of benefits or assistance) under any Federal program or under any State or local program financed in whole or in part with Federal funds."

Households with high energy burdens ?	<input type="radio"/> Yes <input checked="" type="radio"/> No

Explanations of policies for each "yes" checked above:

Applicants that are residents of subsidized housing or residents of a dwelling unit where utilities are included in the rent must provide proof in the form of a utility bill that they are responsible for paying a portion of their own energy costs. If the renter's situation is one where the utilities are not a distinct charge from the rent, no assistance is provided as there is no individual bill and neither energy cost nor energy burden can be determined.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

LIHEAP is a non-entitlement benefit, determined and awarded for a single fiscal year. LIHEAP benefit amounts are determined using the District of Columbia's LIHEAP Benefit Matrix which calculates a household's LIHEAP benefit based on household income, household size, type of dwelling (single or multifamily), and fuel type. Benefit amounts are adjusted annually based on a sliding scale in order to allocate scarce resources in such a way that, while serving as many households as feasible, the highest benefits go to households likely to have the highest energy burdens. (See Attachment 2, "District of Columbia LIHEAP Benefit Matrix"). In addition, in normal years, DOEE provides an early application period (typically the month of October) to those clients who are in crisis (i.e. disconnected from energy service).

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

<input checked="" type="checkbox"/>	Income
<input checked="" type="checkbox"/>	Family (household) size
<input checked="" type="checkbox"/>	Home energy cost or need:
<input checked="" type="checkbox"/>	Fuel type

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits? <input checked="" type="radio"/> Yes <input type="radio"/> No			
If yes, describe.			
Subject to available funding, electric space heaters and blankets are provided to households that have been disconnected from energy service or the home heating oil supply is at 5% or less of capacity.			
If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Explanations of policies for each "yes" checked above:	
<p>Applicants that are residents of subsidized housing or residents of a dwelling unit where utilities are included in the rent must provide proof in the form of a utility bill that they are responsible for paying a portion of their own energy costs. If the renter's situation is one where the utilities are not a distinct charge from the rent, no assistance is provided as there is no individual bill and neither energy cost nor energy burden can be determined. Applicants that have received a shut-off notice or have a near empty tank and meet one of the following: (a) are age 55 or older or (b) use a breathing machine, will be considered for crisis assistance. Applicants who have already exhausted their regular benefit will be considered for crisis assistance if the household has been disconnected from energy service, or the household heating oil is at 5% or less capacity. For the bulleted items following "In order to receive crisis assistance", any one of the checked "yes" bulleted items will be considered a qualifying event. If an applicant goes through the regular application process, is granted a benefit, and still has a need for crisis assistance, the crisis application is processed at the same visit.</p>

4.16 Do any of the utility vendors you work with enforce a moratorium on shut offs?

Yes No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

The utility vendors for the District of Columbia do not enforce a winter moratorium on shut-offs; however, there is forecast-based disconnection prevention policy. Under Chapter 3 of Title 15 of the District of Columbia Municipal Regulations, commonly referred to as the District of Columbia's Public Service Commission (PSC) "Consumer Bill of Rights" or "CBOR", disconnections of PSC-regulated natural gas and electric utility service are prohibited for most District residences according to the following regulation: "(a) An electric utility shall not disconnect residential electric service during the day preceding and the day of a forecast of extreme temperature, when the National Weather Service forecast for the District of Columbia is ninety-five (95°) degrees Fahrenheit or above or thirty-two (32°) degrees Fahrenheit or below during any time of a day, or if the forecast of extreme temperature precedes a holiday or weekend day, on any day during a holiday or weekend; or (b) a Natural Gas Utility shall not disconnect residential gas service during the day preceding and the day of a forecast of extreme temperature, when the National Weather Service forecast for the District of Columbia is thirty-two (32°) degrees Fahrenheit or below during any time of a day, or if the forecast of extreme temperature precedes a holiday or weekend day, on any day during a holiday or weekend." 15 DCMR §310.3. (Note: a proposed rulemaking was published on May 17, 2019 in the District of Columbia Register that would amend this language.)

CBOR also requires utilities to postpone disconnections for a period not to exceed twenty-one (21) days "if the Utility is provided with a physician's certificate or notice from a public health official which states that Disconnection would be detrimental to the health and safety of a bona fide occupant of the premises." 15 DCMR §311.1

At the time this State Plan was drafted, the DC Council had passed the Public Emergency Extension and Eviction and Utility Moratorium Phasing Emergency Amendment Act of 2021, which extended the moratorium to October 12, 2021 and imposed disconnection preventions for protected classes of District residents. DOEE will continue to closely monitor new legislation related to disconnection moratoriums.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federally accepted accounting practices and fiscal controls are used to track administrative and benefit expenditures. Authorized funding is assigned budgetary codes by funding type for tracking, monitoring, and compliance purposes. The LIHEAP program is also subject to District of Columbia internal audits.

Both LIHEAP and WAP are administered by DOEE, therefore weatherization funds are not transferred to a separate state agency and LIHEAP funds are monitored by in-house by the District's Office of the Chief Financial Officer (OCFO) staff.

All vendor transfers are reconciled on a regular basis and vendor refunds are returned to the same funding index from which they originated. DOEE program monitoring includes, but is not limited to, inspecting and reviewing a random sample of client records, administrative procedures and expenditures, vendor payments, requests for disbursement of funds, and other LIHEAP program-related activities.

The FY 2020 Citywide Single Audit is currently in progress, and because of the pandemic, the audit is experiencing delays from the planned completion target dates. OMB Memo M-20-21 extended the completion and submission of the single audit reporting package for up to six months beyond the normal due date. Therefore, the District has until January 3, 2022 to file its FY 2020 Single Audit Reporting Package to the Federal Audit Clearinghouse.

Every applicant for LIHEAP assistance receives at the conclusion of the intake and the processing of their application: (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, (c) a copy of the matrix used to determine benefit level 1 with a user key, and (d) detailed instructions on how to file an appeal if the applicant is dissatisfied with the decision. (See attached.) If the application was made at a DOEE office, these materials are provided to the applicant in person. If the application was taken at a home, as with a disabled or an elderly and frail person, DOEE provides the applicant with a copy of their rights and mails the benefit determination to the applicant promptly after the decision is made. If the application was completed online, materials (a), (c) and (d) are available online and the applicant may request item (b) by calling the District's Office of Unified Communications at 311.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Hearings are held before an administrative law judge at the independent Office of Administrative Hearings.

12.7 When and how are applicants informed of these rights?

At the conclusion of processing of the application, every in-person applicant for LIHEAP assistance receives (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, (c) a copy of the matrix used to determine benefit level with a user key, and (d) detailed instructions on how to appeal if the applicant is dissatisfied with the decision. If the application was completed online, materials (a), (c), and (d) are available online and the applicant may request item (b) by calling the District's unified call center at 311. (See attached.)

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Up to two (2) percent of awarded funds are used to conduct educational activities to educate participants on how to identify energy waste, increase energy efficiency, and to understand and read their utility bills. These activities are conducted to assist clients in reducing their energy costs. For LIHEAP weatherization cases, DOEE's energy efficiency staff explains his findings to the LIHEAP household members.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

A separate line item budget is established for the funds that are used for this purpose. The funds are assigned an index number and tracked and monitored on a monthly basis to assure compliance with funding guidelines. The LIHEAP weatherization work is accounted for separately, as well.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

At the end of each fiscal year an analysis is conducted to determine the estimated savings a single-family household would receive based on the energy conservation measures installed. The following year the same household's energy bills are reviewed to determine the actual costs to quantify the data previously estimated. Please see the actual savings for fiscal years 2019 and 2020 and the estimated savings for fiscal year 2021.

In FY18, 70 clients were served, overall estimated savings in BTUs and cost: 198,561,340/\$7,773; overall gas savings in therms and cost: 21,748 / \$27,837

In FY19, 104 clients were served, overall estimated savings in BTUs and cost: 655,230,244 / \$25,650; overall gas savings in therms and cost: 88,967 / \$113,877

In FY20, 27 clients served, overall estimated savings in BTUs and cost: 149,609,376 / \$53,472 (estimate); overall gas savings in therms and cost: 37,949 / \$48,574

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Energy Efficiency and Conservation Branch staff enrolled 203 LIHEAP recipients into the Assurance 16 program. Upon enrollment, each client was scheduled for a one-on-one consultation, during which their Solar Survey, Energy Survey, and Financial Literacy Quiz were administered. Based on this consultation, personnel were able to determine which areas they need to focus on to educate the client on the various methods they could utilize to reduce their energy burden. In addition, clients were advised of each program DOEE has to offer and also mailed a Welcome Packet to include: a letter explaining the Assurance 16 program, DCSEU kit application, Solar for All one-pager with the application, Weatherization flyer, and a DOEE calendar. As a part of the one-on-one sessions, for those with internet access, personnel navigated the DCSEU "Save in Your DC Home" portal to show residents additional methods to reduce/conserves energy. Twenty clients received additional support services from sister agencies and/or non-profit organizations to assist them with procuring baby supplies, rental/mortgage payments, food, employment, and additional utility assistance.

13.5 How many households applied for these services? 203

13.6 How many households received these services? 203

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

1. Current practices: DOEE currently collects the data required for the LIHEAP performance measures. DOEE made steps in late FY15 and early FY16 to begin collecting the average annual electricity (non-heat) usage for LIHEAP applicants, which was previously not collected due to the difficulty in accessing this information. DOEE updated the applications forms to include language that granted the applicant's permission to share their secondary utility information. Additionally, DOEE updated the language in the vendor agreements to include the provision of usage data for all LIHEAP applicants regardless of home energy type.

2. Areas of improvement: DOEE communicates regularly with Pepco, Washington Gas, and our software vendor to ensure that any issues that arise are attended to so that DOEE will meet the performance measures mandate.

3. FY21: DOEE implemented a new software system to further improve our data collection and reporting procedures. FY20 and FY19: DOEE began working with APPRISE to evaluate and review the reported data in FY18 and plans to continue to do so in FY22. DOEE has also procured a new software vendor and has been working with this vendor and APPRISE to ensure that additional functionality is incorporated for the reporting of performance measures; including improved tracking of the prevention of disconnections and the restoration of service.

4. Plan: DOEE executed revised three-year Vendor Agreements and implemented revised procedures on October 1, 2018. DOEE is further working to align the software technology to match revised requirements within the Vendor Agreement.

If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
