Use of this model plan is optional. However, the information requested is required in order to receive a Low Income Home Energy Assistance Program (LIHEAP) grant in years in which the grantee is not permitted to file an abbreviated plan. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. THE LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM

ASSURANCES

The Department of Energy and Environment agrees to:
(Grantee Name)

(1) use the funds available under this title to:--

- (A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);
- (B) intervene in energy crisis situations;
- (C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and
- (D) plan, develop, and administer the State's program under this title including leveraging programs,

and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to:--

- (A) households in which one or more individuals are receiving--
 - (i) assistance under the State program funded under part A of title IV of the Social Security Act;
 - (ii) supplemental security income payments under title XVI of the Social Security Act;
 - (iii) food stamps under the Food Stamp Act of 1977; or
 - (iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or
- (B) households with incomes which do not exceed the greater of—
 - (i) an amount equal to 150 percent of the poverty level for such State; or
 - (ii) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such

State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under title XX of the Social Security Act, under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that—

(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to --

(A) notify each participating household of the amount of assistance paid on its behalf;

(B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;

(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and

(D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

(A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and

(B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursement of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and

(14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.

(15) * beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.

*** This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed \$200,000. Neither territories with annual allotments of \$200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.**

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

A household where at least one member of the household receives a SNAP, TANF, or SSI benefit is categorically eligible for LIHEAP payment assistance. For the purposes of calculating the amount of the LIHEAP benefit, categorically eligible applicants must submit required LIHEAP application documentation to DOEE. DOEE calculates the LIHEAP benefit amount for a categorically eligible household according to the District of Columbia's LIHEAP Benefit Matrix. Categorical eligibility for SNAP does not apply to the emergency HVAC programs.

For the self-employed, gross income is adjusted gross income, calculated according to U.S. Internal Revenue Service (IRS) requirements. DOEE does not provide benefits to utility accounts with a credit on the account greater than \$1,000.00. DOEE may reduce the client's benefit amount by the estimated dollar value of net-metering credits or virtual net-metering credits received through the District's Solar for All program (see:

https://doee.dc.gov/sites/default/files/dc/sites/ddoe/service_content/attachments/DOEE-%20Report-%20Solar%20for%20All%20Implementation-%20Final%20for%20Transmittal.pdf

The District will not consider the COVID-19 economic impact payments (up to \$1,200 for qualifying individuals and an additional \$500 per child) as income for eligibility. These payments count as a rebate or advance payment of a credit that are exempted as income. Section 103(d) of the American Taxpayer Relief Act amended the relevant statutory provision, 26 U.S.C. § 6409, and specifies that, "... any refund (or advance payment with respect to a refundable credit) made to any individual under this title shall not be taken into account as income, and shall not be taken into account as resources for a period of 12 months from receipt, for purposes of determining the eligibility of such individual (or any other individual) for benefits or assistance (or the amount or extent of benefits or assistance) under any Federal program or under any State or local program financed in whole or in part with Federal funds."

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable households, e.g., benefit amounts, application period, etc.

LIHEAP is a non-entitlement benefit, determined and awarded for a single fiscal year. LIHEAP benefit amounts are determined using the District of Columbia’s LIHEAP Benefit Matrix which calculates a household’s LIHEAP benefit based on household income, household size, type of dwelling (single or multifamily), and fuel type. Benefit amounts are reviewed annually based on a sliding scale in order to allocate scarce resources in such a

way that, while serving as many eligible households as feasible, the highest benefits go to eligible households likely to have the highest energy burdens. (See Attachment 2, "District of Columbia LIHEAP Benefit Matrix").

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- ☒ Income
- ☒ Family (household) size
- ☒ Home energy cost or need:
 - ☒ Fuel type
 - ☐ Climate/region

☒ Yes ☐ No -- If yes, describe:

Subject to available funding, electric space heaters and blankets are provided to households that have been disconnected from energy service or the home heating oil supply is at 5% or less of capacity.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 3 - COOLING ASSISTANCE

Applicants that are residents of subsidized housing or residents of a dwelling unit where utilities are included in the rent must provide proof in the form of a utility bill that they or a household member are directly responsible for paying their own energy costs.

3.4 Describe how you prioritize the provision of cooling assistance to vulnerable households, e.g., benefit amounts, early application periods, etc.

LIHEAP is a non-entitlement benefit, determined and awarded for a single fiscal year. LIHEAP benefit amounts are determined using the District of Columbia’s LIHEAP Benefit Matrix which calculates a household’s LIHEAP benefit based on household income, household size, type of dwelling (single or multifamily), and fuel type. These are total figures for ALL LIHEAP regular assistance for the fiscal year, heating and cooling.

3.7 Do you provide in-kind (e.g. fans, air conditioners) and/or other forms of benefits?

☒ Yes ☐ No -- If yes, describe.

Subject to available funding, box fans are provided to households with inoperable air conditioning, when a member of the household is over the age of 55, or when a member of the household is under the age of six (6).

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 4 - CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component:

HHS Poverty Guidelines _____%

OR

State Median Income _____ 60%

4.2 Provide your LIHEAP program's definition for determining a crisis.

A household is considered to be in crisis if the household has been disconnected from energy service or the household heating oil is at 5% or less of capacity.

As of May 26, 2020, due to the COVID-19 pandemic, a household is considered to be in crisis if the household has a balance with an energy service vendor of \$250 or more.

4.3 What constitutes a life-threatening crisis?

A household is considered to be in a life-threatening crisis if the household depends on energy service for medical life support equipment and one of the following applies: (a) the household has been disconnected from energy service; (b) the household heating oil is at 5% or less of capacity; or (c) the household has received notice that a disconnection will occur within 48 hours or less. To qualify for life-threatening crisis assistance, applicants must provide certification from a licensed physician that a member of the household relies on energy service for emergency medical and life-support equipment.

As of May 26, 2020, due to the COVID-19 pandemic, a household is considered to be in life-threatening crisis if the household has a balance with an energy service vendor of \$250 or more.

During normal operations, all LIHEAP applicants schedule appointments through the District of Columbia’s 3-1-1 information call line. When calling 3-1-1, physically disabled applicants may request a home visit to complete the application process. 3-1-1 call operators forward all home visit requests to LIHEAP staff and LIHEAP staff contact the applicant within 24 hours or the next business day to make arrangements for the home visit. During the public health emergency, physically disabled applicants may apply online at doee.dc.gov/liheap.

Section 10 - Program, Fiscal Monitoring, and Audit, 2605(b)(10) – Assurance 10

10.1 How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federally accepted accounting practices and fiscal controls are used to track administrative and benefit expenditures. Authorized funding is assigned budgetary codes by funding type for tracking, monitoring, and compliance purposes. The LIHEAP program is also subject to District of Columbia internal audits.

Both LIHEAP and WAP are administered by DOEE, therefore weatherization funds are not transferred to a separate state agency and LIHEAP funds are monitored in-house by the District's independent Office of the Chief Financial Officer (OCFO) staff.

All vendor transfers are reconciled on a regular basis and vendor refunds are returned to the same funding index (accounting category) from which they originated. DOEE program monitoring includes periodically inspecting and reviewing a random sample of client records, administrative procedures and expenditures, vendor payments, requests for disbursement of funds, and other LIHEAP program-related activities.

The District completed a Single Audit for FY19; however, the LIHEAP program was not selected for review.

Section 12 - Fair Hearings, 2605(b)(13) – Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year?

During FY 2019 LIHEAP appellants docketed 8 cases at the Office of Administrative Hearings. All 8 cases were dismissed.

12.2 How many of those fair hearings resulted in the initial decision being reversed? None.

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

All of the fair hearings were dismissed by the Office of Administrative Hearings in DOEE's favor (i.e., none reversed DOEE's benefit determination).

12.4 Describe your fair hearing procedures for households whose applications are denied.

The District of Columbia's independent Office of Administrative Hearings (OAH) conducts hearings and resolves cases involving various programs administered by District agencies, including decisions concerning DOEE's LIHEAP non-entitlement benefit. See, generally, the District of Columbia's Municipal Regulations, 1 DCMR §§ 2970 -78.

An applicant, who is dissatisfied with a DOEE LIHEAP decision, including the denial of an application for a benefit, may follow the cited administrative appeal procedures. 1 DCMR 2970.1(l). An independent OAH administrative law judge issues a written decision for every case that is contested.

12.5 When and how are applicants informed of these rights?

Every applicant for LIHEAP assistance receives at the conclusion of the intake and the processing of their application: (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, (c) a copy of the matrix used to determine benefit level with a user key, and (d) detailed instructions on how to file an appeal if the applicant is dissatisfied with the decision. (See attached.) If the application was made at a DOEE office, these materials are provided to the applicant in person. If the application was taken at a home, as with a disabled or an elderly and frail person, DOEE provides the materials to the applicant promptly after the application is made. If the application was completed online or via the mail, materials (a), (c) and (d) are available online and the applicant may request item (b) by calling the District's unified call center at 311.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Hearings are held before an administrative law judge at the independent Office of Administrative Hearings.

12.7 When and how are applicants informed of these rights?

At the conclusion of processing of the application, every in-person applicant for LIHEAP assistance receives (a) a letter confirming the decision, (b) a printout of the database

information on which the decision was based, (c) a copy of the matrix used to determine benefit level with a user key, and (d) detailed instructions on how to appeal if the applicant is dissatisfied with the decision. If the application was completed online, materials (a), (c) and (d) are available online and the applicant may request item (b) by calling the District's unified call center at 311. (See attached.)

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13 - Reduction of home energy needs, 2605(b)(16) – Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Up to two (2) percent of awarded funds are used to conduct educational activities to educate participants on how to identify energy waste, increase energy efficiency, and to understand and read their utility bills. These activities are conducted to assist clients in reducing their energy costs. For LIHEAP weatherization cases, DOE's energy efficiency staff explains his findings to the LIHEAP household members

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

A separate line item budget is established for the funds that are used for this purpose. The funds are assigned an index number and tracked and monitored on a monthly basis to assure compliance with funding guidelines. The LIHEAP weatherization work is accounted for separately, as well.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

At the end of each fiscal year an analysis is conducted to determine the estimated savings a single-family household would receive based on the energy conservation measures installed. The following year the same household's energy bills are reviewed to determine the actual costs to quantify the data previously estimated. Please see the actual savings for fiscal years 2018 and 2019 and the estimated savings for fiscal year 2020.

Fiscal Year	# Client Served	Overall Electric Savings in BTUs and Cost	Overall Gas Savings in Therms and Cost
18	70	198,561,340/\$7,773	21,748 / \$27,837
19	104	655,230,244/\$25,650	88,967/\$113,877
20	27	149,609,376/\$53,472 (estimate)	37,949/\$48,574 (estimate)

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

An energy audit was conducted for each Weatherization applicant to determine the highest energy saving measures to be installed. Energy conservation information was provided to help residents identify potential behavior changes that could lower their utility costs.

13.5 How many households applied for these services?

50 single family households

13.6 How many households received these services?

27 single family households

Section 16 - Performance Goals and Measures, 2605(b) – Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

1. Current practices: DOEE currently collects the data required for the LIHEAP performance measures. DOEE made steps in late FY15 and early FY16 to begin collecting the average annual electricity (non-heat) usage for LIHEAP applicants, which was previously not collected due to the difficulty in accessing this information. DOEE updated the applications forms to include language that granted to DOEE the applicant's permission to share their secondary utility information. Additionally, DOEE updated the language in the vendor agreements to include the provision of usage data for all LIHEAP applicants regardless of home energy type.

2. Areas of improvement: DOEE communicates regularly with Pepco, Washington Gas, and our software vendor to ensure that any issues that arise are attended to so that DOEE will meet the performance measures mandate.

3. FY21: DOEE will implement a new software system to further improve our data collection and reporting procedures. FY20 and FY19: DOEE began working with a consultant, APPRISE, to evaluate and review the reported data in FY18 and plans to continue to do so in FY21. DOEE has also procured a new software vendor and has been working with this vendor and APPRISE to ensure that additional functionality is incorporated for the reporting of performance measures; including improved tracking of the prevention of disconnections and the restoration of service.

4. Plan: DOEE executed revised multi-year Vendor Agreements and implemented revised procedures on October 1, 2018. DOEE is further working to align the software technology to match revised requirements within the terms of each Vendor Agreement.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Attachment 2 - Regular Benefits
DOEE's LIHEAP Regular Benefits Table for FY 2021
See below for explanation

Explanation Key: How to use this table

Use this table to determine how much of a LIHEAP benefit a household may receive for this fiscal year.

Step 1: Before you start working through the table, you must see if the household is eligible for a LIHEAP benefit. That will depend on the size of the household and the combined income of its members. A household is people who live together. It may be one person, a family, or another group who share the home.

Income Limits for FY 2021

1 person	\$37,575	5 people	\$83,822
2 people	\$49,137	6 people	\$95,383
3 people	\$60,698	Additional guidelines are calculated by taking 132% plus 3 percentage points for each household member above six multiplied by the guideline for a household of four.	
4 people	\$72,260		

IF the household income is less than the income limit for the persons, go to step 2. IF NOT, the household is ineligible.

Step 2: Next, is your house a "single family" home (SF) or "multifamily" (MF)? Multifamily usually means apartments. Go to the section that lists the "Home Type" group for you -- SF or MF.

Step 3: Now, find the "Income Household's" line for the number of "People" in your home. This is the number on the table that is just lower than your combined household income. Example: If you are in an apartment with 4 people, and your annual income is \$4100, you would go the line that says MF 4000 4.

Step 4: Find the home heating source for your home. That tells you the maximum benefit for you. Example of a household living in a multifamily building, with an income of \$4,000, four people in the household, and a gas heated home. The maximum benefit is \$1800, which may be applied to the electric bill. The oil benefit is never more than \$1500. But, you can instruct DOEE to pay the utility company that supplies cooking electricity or gas. Example of a household living in a multifamily building, with an income of \$4,000, four people in the household, and an oil heated home. MF 4000 4: Instead of paying the oil company, you can have DOEE pay a maximum of \$1,471 electric or \$883 gas. If your utilities are included in your rent, so that Heat is In Rent (HIR), the benefit can never be more than \$250, paid directly to your utility company for your electric or gas used for cooking or light, etc. DOEE pays the utility company directly.

Note: For households with greater than four people, use the benefit line for "4" people. (This table continues on the next page.)
