3. If the applicant has selected Exemption #3, please obtain approval from Historic Preservation certifying that the property is either a historic landmark or a building or structure contributing to the character of a historic district listed in the D.C. Inventory of Historic Sites. This may be done at the Office of Planning, 1100 4<sup>th</sup> Street SW (6<sup>th</sup> Floor).

5. If the application is reviewed via ProjectDox, it must be uploaded to the Supporting Documents folder for review by the Zoning Technician of Record for the building permit application. Please note that the GAR Exemption Application should not be submitted for review at the Permit Services Center. If the exemption requires separate agency review (i.e. Structural, DC Water, or Historic Preservation Officer), those approval signatures must be obtained prior to Zoning Technician review.
6. If the building permit application is a "walkthrough" building permit application, is reviewed at the Permit Services Center, and is subject to GAR regulations, please include a copy of this completed form, along with any required supplemental information with your building permit application cover sheet.
7. If the project requires Department of Energy and Environment (DOEE) stormwater management review, upload the approved GAR Exemption Application to DOEE's Stormwater Database ([doee.dc.gov/swddb](https://doee.dc.gov/swddb)) under the project's stormwater database plan number.
8. If the exemption is not approved, upload GAR plans that follow GAR Guidebook requirements (available at [doee.dc.gov/GAR](https://doee.dc.gov/GAR)) to [DOEE's Stormwater Database](https://doee.dc.gov/swddb) and pay initial filing fees to begin plan review.
