THE LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM

FY 2023 PROPOSED STATE PLAN

ASSURANCES

The Department of Energy and Environment agrees to:
(Grantee Name)

(1) use the funds available under this title to:--

(A) conduct outreach activities and provide assistance to low-income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this title including leveraging programs,

and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to:--

(A) households in which one or more individuals are receiving--

(i) assistance under the State program funded under part A of title IV of the Social Security Act;

(ii) supplemental security income payments under title XVI of the Social Security Act;

(iii) food stamps under the Food Stamp Act of 1977; or

(iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or

(B) households with incomes which do not exceed the greater of—

(i) an amount equal to 150 percent of the poverty level for such State; or

(ii) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such

State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under title XX of the Social Security Act, under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that—

(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to --

(A) notify each participating household of the amount of assistance paid on its behalf;

(B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;

(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and

(D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

(A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and

(B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursement of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

Categorical Eligibility, 2605(b)(2)(A) – Assurance 2, 2605(c)(1)(A), 2605(b)(8A) – Assurance 8

1.4 Do you consider households categorically eligible if one household member receives one of the following categories of benefits in the left column below? Yes No

	Heating	Cooling	Crisis	Weatherization

1.5 Do you automatically enroll households without a direct annual application?

Yes No -- If yes, explain:

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

A household where at least one member of the household receives a SNAP, TANF, or SSI benefit is categorically eligible for LIHEAP payment assistance. For the purposes of calculating the amount of the LIHEAP benefit, categorically eligible applicants must submit required LIHEAP application documentation to DOEE. DOEE calculates the LIHEAP benefit amount for a categorically eligible household according to the District of Columbia’s LIHEAP Benefit Matrix. Categorical eligibility for SNAP does not apply to the Emergency Mechanical System Program.

SNAP Nominal Payments

1.7 a. Do you allocate LIHEAP funds toward a nominal payment for SNAP clients?

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable households, e.g., benefit amounts, application period, etc.

LIHEAP is a non-entitlement benefit, determined and awarded for a single fiscal year. LIHEAP benefit amounts are determined using the District of Columbia’s LIHEAP Benefit Matrix which calculates a household’s LIHEAP benefit based on household income, household size, type of dwelling (single or multifamily), and fuel type. Benefit amounts are reviewed annually based on a sliding scale in order to allocate scarce resources in such a

way that, while serving as many eligible households as feasible, the highest benefits go to eligible households likely to have the highest energy burdens. (See Attachment, "District of Columbia LIHEAP Benefit Matrix").

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need:
 - Fuel type
 - Climate/region
 - Individual bill
 - Dwelling type

3.4 Describe how you prioritize the provision of cooling assistance to vulnerable households, e.g., benefit amounts, early application periods, etc.

LIHEAP is a non-entitlement benefit, determined and awarded for a single fiscal year. LIHEAP benefit amounts are determined using the District of Columbia’s LIHEAP Benefit Matrix, which calculates a household’s LIHEAP benefit based on household income, household size, type of dwelling (single or multifamily), and fuel type. 3.7 Do you provide in-kind (e.g. fans, air conditioners) and/or other forms of benefits?

- Yes No -- **If yes, describe.**

Subject to available funding and inventory, fans are distributed if the applicant was approved for LIHEAP in the current fiscal year; has not been disconnected from electric service but has an inoperable air conditioning unit; and there are household members fifty-five (55) years of age or older and/or under age six (6) in the home.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

A household is considered to be in crisis if the household has been disconnected from energy service or the household heating oil is at 5% or less of capacity.

As of May 26, 2020, due to the COVID-19 pandemic, a household is considered to be in crisis if the household has a balance with an energy service vendor of \$250 or more.

4.3 What constitutes a life-threatening crisis?

A household is considered to be in a life-threatening crisis if the household depends on energy service for medical life support equipment and one of the following applies: (a) the household has been disconnected from energy service; (b) the household heating oil is at 5% or less of capacity; or (c) the household has received notice that a disconnection will occur within 48 hours or less. For the bulleted items following “In order to receive crisis

assistance”, any one of the checked “yes” bulleted items will be considered a qualifying event. If an applicant goes through the regular application process, is granted a benefit, and still has a need for crisis assistance, the crisis application is processed at the same visit.

Determination of Benefits

4.8 How do you handle crisis situations?

- Separate component

- Other

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

- Yes
- No

Explain. *DOEE accepts applications for energy crisis assistance at two sites that are geographically accessible to all households in the area to be served (one located in the Northwest quadrant and one located in the Southeast quadrant of the District of Columbia). One of the sites, located at 1207 Taylor Street NW is closed for renovations and the site located at 2100 Martin Luther King Jr. Ave SE, is currently closed to the public. Also, see response to Section 4.11.*

4.11 Do you provide individuals who are physically disabled the means to:

Submit applications for crisis benefits without leaving their homes?

- Yes
- No If No, explain.

Travel to the sites at which applications for crisis assistance are accepted?

- Yes
- No If No, explain.

During normal operations, all LIHEAP applicants schedule appointments through the District of Columbia’s 3-1-1 information call line. When calling 3-1-1, physically disabled applicants may request a home visit to complete the application process. 3-1-1 call operators forward all home visit requests to LIHEAP staff and LIHEAP staff contact the applicant within 24 hours or the next business day to make arrangements for the home visit. During the public health emergency, and while the intake centers are closed, physically disabled applicants may apply online at

doee.dc.gov/Liheap; e-mail their application to liheap.support@dc.gov, or mail their application to The Department of Energy and Environment located at 1200 First Street NE 5th floor, Washington DC 20002. If they are unable to apply online, by e-mail or mail, they may request an in-home visit.

Section 10 - Program, Fiscal Monitoring, and Audit, 2605(b)(10) – Assurance 10

10.1 How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federally-accepted accounting practices and fiscal controls are used to track administrative and benefit expenditures. Authorized funding is assigned budgetary codes by funding type for tracking, monitoring, and compliance purposes. The LIHEAP program is also subject to District of Columbia internal audits.

Both LIHEAP and WAP are administered by DOEE, therefore weatherization funds are not transferred to a separate state agency and LIHEAP funds are monitored in-house by the District's independent Office of the Chief Financial Officer (OCFO) staff.

All vendor transfers are reconciled on a regular basis and vendor refunds are returned to the same funding index (accounting category) from which they originated. DOEE program monitoring includes periodically inspecting and reviewing a random sample of client records, administrative procedures and expenditures, vendor payments, requests for disbursement of funds, and other LIHEAP program-related activities.

The single audit for FY21 has not been completed yet. The FY 2021 Single Audit Report will be posted to the OCFO Intranet after BDO has briefed the City Administrator Office with FY 2021 Single Audit results.

The FY 2021 Citywide Single Audit is currently in progress. Previous Single Audit Reports can be found here: <https://cfo.dc.gov/page/single-audit-reports>

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

All of the fair hearings were dismissed by the Office of Administrative Hearings in DOEE's favor (i.e., none reversed DOEE's benefit determination).

12.4 Describe your fair hearing procedures for households whose applications are denied.

The District of Columbia's independent Office of Administrative Hearings (OAH) conducts hearings and resolves cases involving various programs administered by District agencies, including decisions concerning DOEE's LIHEAP non-entitlement benefit. See, generally, the District of Columbia's Municipal Regulations, 1 DCMR §§ 2970 -78.

An applicant who is dissatisfied with a DOEE LIHEAP decision, including the denial of an application for a benefit, may follow the cited administrative appeal procedures. 1 DCMR 2970.1(l). An independent OAH administrative law judge issues a written decision for every case that is contested.

12.5 When and how are applicants informed of these rights?

Every applicant for LIHEAP assistance receives at the conclusion of the intake and the processing of their application: (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, and (c) information on the benefit matrix used to determine level with a user key, and how to contact the Office of Administrative Hearings to file an appeal if the applicant is dissatisfied with the decision. (See attached.) If the application was made at a DOEE office, these materials are provided to the applicant in person. If the application was taken at a home, as with a disabled or an elderly and frail person, DOEE provides the materials to the applicant promptly after the application is made. If the application was completed online or via the mail, materials (a) and (c) are available online and the applicant may request item (b) by calling the District's unified call center at 3-1-1.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Hearings are held before an administrative law judge at the independent Office of Administrative Hearings.

12.7 When and how are applicants informed of these rights?

At the conclusion of processing of the application, every in-person applicant for LIHEAP assistance receives (a) a letter confirming the decision, (b) a printout of the database

information on which the decision was based, (c) a link to the matrix used to determine benefit level with a user key, and (d) a link to detailed instructions on how to appeal if the applicant is dissatisfied with the decision. If the application was completed online, materials (a), (c) and (d) are available online and the applicant may request item (b) by calling the District's unified call center at 3-1-1. (See attached.)

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13 - Reduction of home energy needs, 2605(b)(16) – Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Up to two (2) percent of awarded funds are used to conduct educational activities to educate participants on how to identify energy waste, increase energy efficiency, and to understand and read their utility bills. These activities are conducted to assist clients in reducing their energy costs. For LIHEAP weatherization cases, DOEE's energy efficiency staff explains their findings to the LIHEAP household members.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

A separate line item budget is established for the funds that are used for this purpose. The funds are assigned an index number and tracked and monitored on a monthly basis to assure compliance with funding guidelines. The LIHEAP weatherization work is accounted for separately, as well.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

At the end of each fiscal year an analysis is conducted to determine the estimated savings a single-family household would receive based on the energy conservation measures installed. The following year the same household's energy bills are reviewed to determine the actual costs to quantify the data previously estimated. Please see the actual savings for Fiscal Years 2020 and 2021 and the estimated savings for Fiscal Year 2022.

Fiscal Year	# Client Served	Overall Electric Savings in BTUs and Cost	Overall Gas Savings in Therms and Cost
20	27	127,627,759 / \$4,862	7,926 / \$11,126 \$412 Per Unit
21	104	504,413,540 / \$19,218	11,322 / \$14,492 \$179 Per Unit
22	59	185,443,392 / 11,445 \$193.98 Per Unit (estimate)	16,932 / \$23,785 \$403.14 Per Unit (estimate)

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Due to the pandemic EECB personnel focused on identifying the impact of COVID on recipients of LIHEAP-funded work through our Weatherization and Emergency Mechanical System Program. We administered the survey to 41 weatherization clients and 52 EMS clients. Based on the responses we also referred program participants to additional support services if they requested them. EECB personnel was also able to create a partnership with local elementary schools. In Fiscal Year (FY) 2021 Two Rivers Elementary School and in FY 2022 Malcolm X Elementary School where we educated students on energy efficiency, reuse, and upcycling garments. Based on the bi-weekly visits conducted over a period of 6 months we were able to generate the "art work" to disseminate the energy savers calendars in 2022 and 2023.

13.5 How many households applied for these services?

93 single family households

13.6 How many households received these services?

93 single family households

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

1. Current practices: DOEE currently collects the data required for the LIHEAP performance measures. DOEE made steps in late FY15 and early FY16 to begin collecting the average annual electricity (non-heat) usage for LIHEAP applicants, which was previously not collected due to the difficulty in accessing this information. DOEE updated the applications forms to include language that granted to DOEE the applicant's permission to share their secondary utility information. Additionally, DOEE updated the language in the vendor agreements to include the provision of usage data for all LIHEAP applicants regardless of home energy type.

2. Areas of improvement: DOEE communicates regularly with Pepco, Washington Gas, and our software vendor to ensure that any issues that arise are attended to so that DOEE will meet the performance measures mandate.

3. FY21: DOEE implemented a new software system to further improve our data collection and reporting procedures.

FY22, FY21, FY20, and FY19: DOEE worked with a consultant, APPRISE, to evaluate and review the reported data in FY19 and plans to continue to do so in FY23. DOEE has also procured a new software vendor and has been working with this vendor and APPRISE to ensure that additional functionality is incorporated for the reporting of performance measures; including improved tracking of the prevention of disconnections and the restoration of service.

4. Plan: DOEE is in the process of executing revised multi-year Vendor Agreements and implemented revised procedures. DOEE is further working to align the software technology to match revised requirements within the terms of each Vendor Agreement.
