**Lead Agency**
DDOT

**Project Type**
Design/Construction

**Design Start/End**
May 2022 – September 2023 (estimated)

**Construction Start/End**
TBD – TBD

**Objective**
Install subwatershed-wide stormwater volume reduction and water quality improvement techniques in the right-of-way to include permeable pavement, bioretention, trees, and other impervious surface removal. Approximately 200,000 gallons of stormwater runoff is expected to be retained and treated in combination with a companion project to retrofit the Spring Valley subwatershed.

**Outputs**
- Designs and permits
- To be determined in the design phase

**Sewershed**
MS4

**Watershed**
Rock Creek

**Subwatershed**
Broad Branch

**Ward**
4
