MEETING TITLE: UFAC Winter Meeting, Web-Ex

Council Members:

Steve Saari, DOEE                  Patrick Campbell, NPS                  Nathan McElroy, Pepco
Earl Eutsler, DDOT                 Maureen Alonso, GSA                  Dennis Chestnut, comm. rep.
Brent Sisco, DPR                   Maureen Holman, DC Water               Delores Bushong, comm. rep.
Angela Scott, DGS                  Mark Buscaino, Casey Trees             Brenda Richardson, comm. rep.
                                      Carol Herwig, comm. rep

Invited Guests:

Robert Corletta, DDOT              Stephen Gyor, OP                       Peter Norden, DPR
Joi Ruffin, DCPS                   Matt Weber, DOEE                        Kasey Yturalde, DDOT
Stephanie Free, NCPC               Sally Claggett, USFS                     Julie Mawhorter, USFS
Phillip Rodbell, USFS              Nancy Sonti, USFS                        Mary Pat Rowan, community
Kelly Collins Choi, Casey Trees    Rob Shaut, Casey Trees                   Iris Allen, MD DNR
Ashlyn Pouvaranukoah, UDC         Annie Acostia, community                 Allison Clausen, community

SCHEDULE:

<table>
<thead>
<tr>
<th>TIME</th>
<th>Agenda Item</th>
</tr>
</thead>
<tbody>
<tr>
<td>10:00-10:10</td>
<td>Welcome, Introductions &amp; Minutes– Jim Woodworth, DOEE (10 min)</td>
</tr>
<tr>
<td>10:10-10:25</td>
<td>Forest Health updates – DDOT Urban Forestry Division (15 min)</td>
</tr>
<tr>
<td>10:25-10:40</td>
<td>Langdon Park Forest Patch project update - partners (15 min)</td>
</tr>
<tr>
<td>10:40-10:50</td>
<td>Trees, Streams and Beavers – DDOT/DOEE (10 min)</td>
</tr>
<tr>
<td>10:50-11:00</td>
<td>Urban Wood Reutilization partnership with USFS and Architect of the Capitol (AOC) – DDOT UFD (10 min)</td>
</tr>
<tr>
<td>11:00-11:50</td>
<td>District’s urban tree canopy change analysis – DDOT UFD (50 min)</td>
</tr>
<tr>
<td>11:50 – 12:00</td>
<td>Other items and issues (10 min)</td>
</tr>
</tbody>
</table>
from Iris Allen, MD DNR to everyone:  10:09 AM
Having some mic issues, sorry! Iris Allen with the Maryland Forest Service. Happy New Year!
from james woodworth to everyone:  10:16 AM
HNY Iris!
from Earl Eutsler (privately):  10:17 AM
are you seeing the presentation? I still just see the first slide
from james woodworth to everyone:  10:17 AM
yes - same
from Dennis Chestnut to everyone:  10:23 AM
Does climate change have any impact on this infestation? Is this a normal natural occurrence? There are a lot of crepe myrtle planted throughout DC, especially in Ward 7.
from carol herwig to everyone:  10:24 AM
Can we attend that briefing. I've been getting calls the past two summers, and especially last summer about the sooty mold and aphids that follow. Saw scale yesterday on a large interior patio crape myrtle
from carol herwig to everyone:  10:25 AM
great thanks
from carol herwig to everyone:  10:26 AM
Lets get ashlyn on site at Armed Forces Retirement Home where there are lots of oaks, especially white oaks
from Earl Eutsler to everyone:  10:27 AM
Great idea, Carol!
from Ashlyn Pouvaranukoah - UDC Grad Student to everyone:  10:28 AM
Thank you Carol! I'll plan to make a site visit during the springtime.
from Kasey Yturralde to everyone:  10:29 AM
If you are interested in learning about crape myrtle bark scale, please let me know (or joining SLF calls), kasey.yturralde@dc.gov
from Maureen Holman to everyone:  10:37 AM
I live in NE and would love a copy of the Langdon presentation to share!
from Steve.Saari to everyone:  10:38 AM
Love the research work you are doing!
from Maureen Holman to everyone:  10:49 AM
Beavers are natures engineers!
from Dennis Chestnut to everyone:  10:50 AM
This needs to be outreachted more to the community so they understand this better.
from Dennis Chestnut to everyone:  10:51 AM
They went after cherry in Marvin Gaye Park at Burroughs and Minn. Ave.
from Nancy Sonti to everyone:  10:53 AM
https://www.wnyc.org/story/nyc-beavers-were-back-baby/
from Nancy Sonti to everyone:  10:53 AM
Could be a cool opportunity for public interest
from Steve.Saari to everyone:  10:53 AM
Buddy Attick Lake in PG County is a good example of how to protect forests with beaver
from Kasey Yturralde to everyone:  10:55 AM
Hi Mr. Chestnut, thanks, yes, I also think we could learn about what the beavers are doing by talking with neighbors who have watched them over the years

from Iris Allen, MD DNR to everyone:  10:09 AM
Having some mic issues, sorry! Iris Allen with the Maryland Forest Service. Happy New Year!
from james woodworth to everyone:  10:16 AM

Hi Mr. Chestnut, thanks, yes, I also think we could learn about what the beavers are doing by talking with neighbors who have watched them over the years
from Kasey Yturralde (privately): 10:56 AM
Hi Jim, do you save the chat? or can I save it? Want to make sure I don’t miss any of these suggestions/questions
from Steve Saari to everyone: 10:57 AM
at the end of the meeting i will grab and copy paste again.
from Julie Mawhorter to everyone: 10:57 AM
Many thanks to Earl for stepping up to lead out on this nationally - the innovative work you've already been doing with urban wood is what made this possible!
from Dennis Chestnut to everyone: 10:58 AM
What about the kiln at IDEA Public Charter HS? Will they be involved?
from Dennis Chestnut to everyone: 11:00 AM
Thanks Earl!
from Brenda Lee Richardson to everyone: 11:22 AM
What is wrong with Princeton elms?
from Mark Buscaino to everyone: 11:20 AM
They're not scholarly enough. Harvard Elms are far better!
from Steve Saari to everyone: 11:21 AM
Earl, can you share the presentation by email after the meeting?
from Dennis Chestnut to everyone: 11:22 AM
How much impact does street tree pruning by Pepco contractors have on the canopy? They chop them up pretty bad in my neighborhood.
from Brenda Lee Richardson to everyone: 11:22 AM
Remarkable.
from Allison Clausen to everyone: 11:22 AM
Wow. That is awesome!
from Spenser Balog to everyone: 11:22 AM
Incredible
from Steve.Saari to everyone: 11:22 AM
Do we now make the developer plant these areas with construction?
from Dennis Chestnut to everyone: 11:24 AM
Can the Dr. Seuss trees that Pepco pruning is creating be removed and replace with under-story trees?
from Steve.Saari to everyone: 11:25 AM
Har, har, Mark!
from Mark Buscaino to everyone: 11:27 AM
sorry - couldn't help myself. Most but not all Princeton's have narrow branch angles that tend to weaken and split, which can compromiss the entire tree. You can see this on some of the Langdon Elms, as well as those along Barracks which was the first planting we did many years ago...
from Steve.Saari to everyone: 11:28 AM
Thanks!
from Delores bushong to everyone: 11:31 AM
Why aren't more small trees planted to replace those large ones that have to be removed so that the canopy coverage that the large trees provide now. One for one replanting means decreased canopy.
from Delores bushong to everyone: 11:33 AM
Thanks Earl for explaining why RIA is a special case. Hope that continuous strips can replace tree boxes.
from Dennis Chestnut to everyone: 11:35 AM
The wires are on the south side of my street. The trees on the north side aren't impacted and grow well. The ones on the south side are pruned by pepco. The way pepco prunes the trees, they don't trim what grows toward the homes from the public space. Uneven growth.
from Steve.Saari to everyone: 11:39 AM
I noticed as you scrolled a fair amount of tree loss on Roosevelt Island. Is that due to loss of ashes?
from carol herwig to everyone: 11:41 AM
didn't nps also do some serious invasive removal at roosevelt
from Steve.Saari to everyone: 11:42 AM
Agreed!
from Kasey Yturralde to everyone: 11:45 AM
https://iucnurbanalliance.org/promoting-health-and-wellbeing-through-urban-forests-introducing-the-3-30-300-rule/
from James Woodworth to everyone: 11:50 AM
Kasey, can you also drop the link here for Earl's arcgis storymap?
from Dennis Chestnut to everyone: 11:54 AM
Trees support stormwater management, i more planting in the floodplain areas being considered?
from Nancy Sonti to everyone: 11:56 AM
Amazing presentation Earl despite the technical difficulties!
from Delores bushong to everyone: 11:57 AM
Thanks so much Earl for the presentation. Loved being able to see the changes over time. Great tool for figuring out what to do next.
from Rob Shaut Casey Trees to everyone: 11:58 AM
Thanks Earl, no worries. Way to adapt on the fly - very informative.
from Stephen Gyor to everyone: 11:58 AM
Great presentation Earl!
from Julie Mawhorter to everyone: 11:59 AM
Agreed - we're excited to hopefully feature DC's canopy data/change story in our spring Chesapeake Tree Canopy Network newsletter
from Steve.Saari to everyone: 11:59 AM
Unfortunately I need to run to another meeting. Thanks, Earl and all!
from Rob Shaut Casey Trees to everyone: 12:00 PM
Thanks Jim
from Julie Mawhorter to everyone: 12:00 PM
Thanks all!
from Matt Weber to everyone: 12:00 PM
Nice presentation, Earl, thank you very much. Showed the good, the bad, and potential!
from Carol Herwig to everyone: 12:00 PM
Thanks all
