

Electronics Recycling Programs

As of January 1, 2018, covered electronics are banned from the trash. Manufacturers of these electronics (televisions, computers, and [related equipment](#)) are required to collect and recycle or reuse electronic waste. Below are some of the electronics recycling options that are part of the District's electronics stewardship program, [eCYCLE DC](#).

Note that some manufacturer stewardship programs may charge a fee or have limitations on accepted products.

Mailback Programs

*Manufacturers' recycling plans include a mailback program that accepts **any brand** of a particular type of covered electronic equipment that a DC consumer has purchased from the manufacturer in the District. Please visit the mailback program's website for details, including the types of covered electronic equipment accepted.*
