Current Funding Opportunities

Enhancing Green Infrastructure Community Benefits

DOEE seeks eligible entities for projects that implement a participatory planning and design process to identify community-identified green infrastructure (GI) benefits for Stormwater Retention Credit (SRC)-generating projects. A grantee will help one or more communities develop best practices for identifying their desired green infrastructure benefits. These grants may also fund the installation of additional elements to existing or planned SRC-generating green infrastructure to provide community-identified GI benefits. GI practices provide many environmental and economic benefits and protect against the harmful impacts of stormwater runoff. The amount available for the project is a total of \$70,095, available in grant amounts of no more than \$40,000. **The deadline for application submissions is February 17, 2023.** The online application must be time-stamped by 11:59 p.m. on the date the application is due. To obtain a copy of the RFA, head to the attachments section of our website [here](#).

For additional information regarding this RFA, write to: 2022GICoBenefits.grants@dc.gov.

FloodSmart Homes Program

DOEE seeks eligible entities to help reduce the loss of life, damage to property, and harm to natural resources from flooding. The grantee will install upgrades to homes in flood-prone areas of the District and provide some emergency assistance for anticipated flood events. The amount available for the project is \$2,520,969. **The deadline for application submissions is February 27, 2023.** To obtain a copy of the RFA, head to the attachments section of our website [here](#).

For additional information regarding this RFA, write to: flood.risk@dc.gov.

Job Openings & Trainings

Paid Summer Internship Opportunity

DOEE is hosting a paid intern this summer, sponsored by the Chesapeake Research Consortium (CRC). This internship program was designed to create pathways for underrepresented students to pursue careers in environmental research and management. Applications will be accepted until 2/21 from eligible candidates (undergraduate students who are a person of color and/or first-generation college student). The intern will primarily support a stream monitoring project in DC. More info: [C-StREAM Internships - Chesapeake Research Consortium](#)

RiverSmart Homes is Hiring!

DOEE is growing its award-winning RiverSmart Homes program. This recruitment is for an Environmental Protection Specialist, Grade 9, in the Watershed Protection Division. Please click [here](#) for more information and apply by 2/23/23.

Other

Interested in understanding how the District is improving the quality of our local rivers and streams? Check out the [2022 Municipal Separate Storm Sewer System \(MS4\) Storymap](#). Reach out to Matt Gallagher at matthew.gallagher@dc.gov with any feedback on the content or how the information is presented.
