

GOVERNMENT OF THE DISTRICT OF COLUMBIA  
Department of Energy and Environment

October 12, 2023

Dear Stakeholder:

The Department of Energy and Environment (DOEE) is requesting data from ambient water quality monitoring programs, special water quality studies performed by universities and community groups, and all data related to water quality for waters within the boundaries of the District of Columbia that meet the following criteria:

- 1) Collected for the period from July 1, 2021 through June 30, 2023, and
- 2) Accompanied by a copy of the quality assurance project plan implemented to collect the data.

Data received by November 10, 2023, will be considered as DOEE prepares the District of Columbia's 2024 303(d) list. The federal Clean Water Act requires the Government of the District of Columbia to assess the city's waters and publish a 303(d) list biennially of those waters not attaining established water quality standards. Waterbodies listed as impaired may require the development of total maximum daily loads (TMDLs).

Please submit your data electronically to DOEE at [doeir.doe@dc.gov](mailto:doeir.doe@dc.gov) or in hard copy to the following address:

DOEE Water Quality Division  
1200 First Street NE, 5th Floor  
Washington, DC 20002  
ATTN: 2024 303(d) List

Please feel free to share this request with other parties that may have relevant water quality data. We appreciate your help to improve water quality in the District of Columbia. For more information about the District's TMDLs, 303(d) list, and Integrated Report for water quality, please visit <https://doee.dc.gov/service/total-maximum-daily-load-tmdl-documents>.

Sincerely,
