

Green Infrastructure Stewardship

Volunteer Guidelines

At Least Once Per Month

(and before and after any rain event), You SHOULD:

- Remove sediment and debris from inlets, overflows, and curb lines
- Pick up trash
- Check for erosion
- Remove fallen leaves
- Monitor plant health
- Water during drought (periods of low rainfall)

**With DOEE Approval,
and Special Coordination and Training,
You Can Also Help To:**

- Remove weeds
- Prune (only during winter months when trees and shrubs are dormant, or when there is a sight-line or safety hazard)

Call 311 If You Observe:

- Illegal dumping
- Damage or vandalism
- Standing water longer than 72 hours
